Advanced Programming Feedback

Results

Student Name (ID Number)	Grobicki, Sean (18011270)
Submission ID	Xd1e72056
Task Completed	Hackathon
Overall Mark	**100**

Feedback Comments

This looks like a very good attempt at the hackathon task, almost completing everything within the time-frame

A few of your classmates had slightly neater solutions for displaying results, or slightly neater mapping code. However, I don't see anything that would justify losing any marks.

Given the time constraint you were working under, I'm very happy indeed with this work. Well done!
